B-MAX VERTICAL SMALL INDUSTRIAL BOILER (SIB)

BUILT FOR PERFORMANCE.
DESIGNED FOR RELIABILITY.

B-MAX is a vertical, multi-fuel fired, compact and efficient steam boiler designed for a wide range of industrial applications. It offers quick steam generation, reliable performance and easy operation with minimum maintenance.

KEY FEATURES

-  Compact Vertical Design
-  Quick Steam Generation
-  High Thermal Efficiency
-  Easy Installation
-  Low Maintenance
-  Fuel Flexible Operation (Wood / Coal / Briquette / Biomass)
-  Rugged Construction
-  Long Service Life

TECHNICAL SPECIFICATIONS

MODEL	CAPACITY (Kg/hr)	PRESSURE (Kg/cm ²)
BM-100	100	7.0
BM-200	200	7.0
BM-300	300	7.0
BM-400	400	7.0
BM-500	500	7.0
BM-600	600	7.0

Note: Steam capacity and pressure are per standard conditions.
Specifications are subject to change without prior notice for improvement.
